

Wireless Products General

How do I check the health of my QolorPoint Battery?

- o Open Fixture and remove the battery
- o Disconnect all wires from the battery
- o Use a multimeter to test voltage
- o Is voltage 24v or higher?
 - Yes, continue with the checklist
 - No, replace the battery and start again
- o Reconnect the battery to the fixture. (Do not put the unit back together yet.)
- o Run a test function for 4 and a quarter hours
- o Test function setup:
 - Hold the up and down arrows and press the power button.
 - Let go of all buttons. This will do a master reset and make the light turn on in Lee 02.
 - Turn off the power and turn the power back on.
 - Go to 'Change Settings'
 - Go to ' BRIGHTENS Control'
 - Set to 75%
 - Back out to the main menu
 - Go to 'Change Function' > 'Function Custom' > 'Custom Color' > Red 255 > Green 255 > Blue 255 > White 255.
 - Run test for 4 and a quarter hours.
- o Did the QolorPoint stay on for 4 and a quarter hours or more?
- o Yes, the test is complete and your battery has passed.
- o No, your battery should be replaced.
