

Receiver Card

Do you recommend a connector to use on the receiver card?

We have 2 different recommended parts.

1844905 Phoenix COMBICON 2x5 0.100" 10 pin connector: This one can be placed where the main critical connections are located, DMX and power.

1761607-7 TE Connectivity, 2x10 0.100" 20 pin connector: This one can be used to cover all pins using a ribbon cable.

Unique solution ID: #1321
