## What is the warranty period for a manual Iris?

### City Theatrical Iris Limited Lifetime Warranty

We will provide a lifetime warranty on any manual iris we manufacture subject to the following conditions:

- The wattage of the lighting fixture is limited to incandescent lamps of 750w maximum. Therefore, burned leaves are not covered by this warranty.
- Damage such as broken arms or broken or cracked brass stampings that are caused by normal use (but not by misuse or abuse) would be covered by this warranty.
- CTI will repair or replace items under warranty at its discretion, and may replace damaged items with factory rebuilt irises.
- Freight costs in both directions are the responsibility of the customer.
